

REMARKS

Upon entry of the present Amendment, claim 12 will have been amended, with claims 1-22 remaining pending for consideration by the Examiner. Applicant notes that claim 12 has been amended to further recite an image display panel affixed to the body for displaying an image picked up by the image pickup device. Accordingly, the Examiner is respectfully requested to exercise his discretion and enter the present amendment.

This amendment has not been made to overcome a rejection based upon the prior art and has thus not been made for a purpose related to patentability and is not intended to narrow the scope of the claims. Accordingly, this amendment should not be considered a decision by Applicant to narrow the claims in any way

Should there be any questions regarding this paper or the present application, the Examiner is respectfully requested to contact the undersigned at the below-listed telephone number.

Respectfully submitted,
